1. All pending claims 15-20 are allowed. Claims 15, 17 and 19 are independent.
2. The amendment to the specification filed December 5, 2005 has been approved by the examiner.
3. The following is an examiner's statement of reasons for allowance:

Independent claims 15, 17 and 19 were allowed in the previous Office Action dated September 22, 2005. The reasons for allowance given in that Office Action are still valid after the updated search. The reasons are repeated below.

Independent claims 15, 17 and 19 each require that a distance between the standard, or the fixed guide of the document tray as the standard, and a center of the first feed roller in terms of the orthogonal direction against the document transport direction is longer than a distance between the standard, or the fixed guide as the standard, and a center of the separate roller in terms of the orthogonal direction against the document transport direction. This feature is not taught by the prior art of record. In the closest prior art Kobayashi et al. (U.S. Patent No. 5,826,155), the distance between the guide of the document tray (the upper guide in Fig. 2) and the center of the feed roller (41 and 42 in Fig. 1) (which form the first registration means 43 in Figs. 1 and 2) is not longer but shorter than the distance between the guide and the center of the roller (34 in Fig. 1, the left roller of 30 in Fig. 2). Therefore, the closest prior art Kobayashi et

al. does not disclose the above claim feature in combination with other limitations of claims 15, 17, or 19.

Claims 16, 18, and 20 depend on claims 15, 17, and 19, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
